The Academy of Choice

Your choice for innovative learning in the 21st century!

Academic Success

Your academic success is most important in Spring Branch Independent School District. The Academy of Choice offers a new opportunity for students to be more successful in high school. Here, you will develop the skills you need for career in the 21st century. A variety of learning options are available to students. At the Academy of Choice, counselors work with students to design an individual success plan for high school and beyond.

A student's individualized plan will provide opportunities to:

- **Increase** his or her skills in areas in which they struggle.
- **Earn** high school credits faster than in traditional high schools
- **Enroll** in on-line virtual classes
- **Acquire** specialized career & technology high school credits
- **Engage** in project-based learning

Parent Involvement

Parental involvement is a very important part in a child's success in school and in life. Students whose parents are actively involved in their education are more successful as well as exhibit positive attitudes and appropriate behaviors. We believe all parents are important and their involvement in their student's education helps them to be successful.

At The Academy of Choice, parental involvement means:

- **Making sure** your student attends school every day.
- **Supporting** the school's guidelines as explained in The Academy of Choice Handbook.
- **Requiring** the student to always demonstrate respect for teachers, peers and all other adults at school.
- **Attending** monthly Parent Involvement nights and parent-teacher conferences.
- **Providing** a quiet, well-lit study area at home.
- **Setting up** a regular time for study.
- **Checking** to make sure homework is completed.
- **Encouraging** students to do their best work.
- **Setting** an example for your child by being a life-long learner.

Student Involvement & Expectations

At The Academy of Choice, we believe students who participate in their education will be successful. This means a student at The Academy of Choice actively participates in their classes and works on their goals for success. Our teachers and staff are your partners in your success plan. We stand ready to assist you in pursuing your dreams.

At The Academy of Choice, student involvement means:

- **Being** responsible for your learning.
- **Doing** your best in every class, not just the ones you like.
- **Demonstrating** by your actions and words respect for yourself, teachers, peers, and other adults.
- **Maintaining** a neat organizational binder that includes class notes, notations of assignments, and completing homework assignments.
- **Attending** school regularly.
- **Being prepared** for class.
- **Asking** for help when needed.
